

Offshore&Marine Services

Environmental Policy

Offshore & Marine Services OÜ

Offshore & Marine Services OÜ is committed to environmentally responsible operations. Our goal is to minimize environmental impact while complying with all applicable laws and ISO 14001:2015 standards.

Key Principles

- Set realistic and measurable environmental objectives.
- Comply with national and international environmental regulations.
- Provide clear and up-to-date information to stakeholders.
- Increase environmental awareness among employees and partners.
- Continuously improve the environmental management system.

Main Environmental Aspects

- Use of electrical materials and chemicals
- Energy consumption through tools and transportation
- Air emissions and waste from work processes
- Use of paper and office supplies
- Compliance with international environmental standards

Objectives and Activities

- Sort waste by type and maximize reuse and recycling
- Reduce energy use and transportation-related CO₂ emissions
- Promote use of digital tools and public transport
- Use only technically sound equipment

Waste Management

- Every employee sorts general and hazardous waste at the source
- Collection points are clearly marked on work sites
- Hazardous waste (e.g., toner, batteries, oils) is handed over to licensed handlers
- Project managers and occupational safety officers are responsible for waste handling
